WORK EXPERIENCE

Front-end developer Intern DevOnSite

03/2023 - 06/2023

During my internship, I worked on several small projects as practice. After completing the internship, I worked as a full stack web developer using PHP technology.

Frontend || Backend developer(PHP core) DevOnSite

06/2023 - 10/2023

After completing my internship, I worked on the following projects:

Achievements/Tasks

- **Grocery Management System (GMS)** : Built on PHP core technology using the MEDOO database framework with an AJAX-based system. I handled most of the development work in this project.
- **Courier Service Website (SameDayDelivery)** : I contributed to the front-end tasks and also performed testing for this project."

Jr. Software Engineer(Angular with ASP .Net core web API's) Softtech Bridge

11/2023 - Present

I am currently working as a junior software engineer in a product-based company that develops apps and websites for travel agencies. I am involved in the following projects:

Achievements/Tasks

- **OK Travel (oktrvls.com)** : A flight ticket booking website specifically for the UAE. I handle tasks such as fixing bugs, updating UI design, making content dynamic, Integration of Airline's and implementing new functionality.
- **T4 Travel (t4travels.com)** : Similar to OK Travel but tailored for PKR(Pakistan). My role involves bug fixes, UI improvements, dynamic content integration, Integration of Airline's and working on various functionalities.
