Final year project

Front-end developer Intern
DevOnSite
01/2022 - 03/2022
Here i did many small projects when i was on internship now i'm doing a job here as a full stack developer using PHP technology.

Frontend || Backend developer
DevOnSite
03/2022 - Present
In this company i completed my internship and am now working here. I worked on these:
Achievements/Tasks
- GMS(Grocery management system)which is built on PHP core technology using php database framework MEDOO through ajax based system.This project is mostly done by me.
- Courier service website(samedaydelivery), in this site i did some work related to frontend and also did testing on it.

CERTIFICATES

Graphic Designer , Peak Solution College Lahore

Html CSS Bootcamp from MLSA Fabtech

FINAL YEAR PROJECT

Donation website in MERN Technology

I did my final year project in MERN technology, where we make a web application like (DONATE HAPPINESS). In this project I did Front-end task. In this web application user can donate/request blood and give money to our charity, which we will use for nearby needy people and poor family.
